MEDICAL FEE DISPUTE RESOLUTION FINDINGS AND DECISION

PART I: GENERAL INFORMATION

Requestor Name and Address: MEMORIAL HERMANN HOSPITAL SYSTEM 3200 SW FRWY SUITE 2200 HOUSTON TX 77027	MFDR Tracking #: M4-07-4989-01
	DWC Claim #:
	Injured Employee:
Respondent Name and Box #: TEXAS MUTUAL INSURANCE CO Box #: 54	Date of Injury:
	Employer Name:
	Insurance Carrier #:

PART II: REQUESTOR'S POSITION SUMMARY

Requestor's Position Summary: "The expected reimbursement is based upon the hospital's fair and reasonable charges, usual and customary which is the amount of its billed charges of \$27,603.25."

Amount in Dispute: \$20,110.16

PART III: RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: "Rule 134.401 indicates the payment of the requestor's bill should be fair and reasonable. Further, DWC states in the Preamble to Rule 134.401 that Medicare is an equivalent standard of living to workers' compensation in Texas." "Medicare is a voluntary system." "Because the requestor voluntarily accepts Medicare patients, Texas Mutual argues that what Medicare would reimburse the requestor for the disputed bill is relevant to determining a fair and reasonable payment." "The Medicare payment to the requestor is \$11,684.95." "In 2002 DWC commissioned Ingenix, Inc. to derive reimbursement amounts for ASCs, hospital outpatient departments, and inpatient admissions. Ingenix recommended a range of payment adjustment factors of Medicare from 107% to 121%. These payment adjustment factors are done to balance the competing standards of a fair and reasonable reimbursement as outline in the Labor Code above. Thus, 121% of \$11,684.95 is \$14,138.79. Texas Mutual paid \$7,493.09 and will issue a supplemental payment of \$6,645.70 under separate cover."

Total Due:				\$0.00

PART V: REVIEW OF SUMMARY, METHODOLOGY AND EXPLANATION

Texas Labor Code §413.011(a-d), titled *Reimbursement Policies and Guidelines*, and Division rule at 28 Texas Administrative Code §134.1, titled *Use of the Fee Guidelines*, effective May 16, 2002 set out the reimbursement guidelines.

This request for medical fee dispute resolution was received by the Division on April 10, 2007.

- For the services involved in this dispute, the respondent reduced or denied payment with reason codes:
 - CAC-W10-No maximum allowable defined by fee guideline. Reimbursement made based on insurance carrier fair and reasonable reimbursement methodology.
 - CAC-97-Payment is included in the allowance for another service/procedure.
 - 217-The value of this procedure is included in the value of another procedure performed on this date.
 - 426-Reimbursed to fair and reasonable.

2. This dispute relates to inpatient surgical services provided in a hospital setting with reimbursement subject to the provisions of Division rule at 28 TAC §134.401(c)(5)(A), effective August 1, 1997, 22 TexReg 6264, which requires that when "Trauma (ICD-9 codes 800.0-959.50)" diagnosis codes are listed as the primary diagnosis, reimbursement for the entire admission shall be at a fair and reasonable rate. Review of box 67 on the hospital bill finds that the principle diagnosis code is listed as 801.22. The Division therefore determines that this inpatient admission shall be reimbursed at a fair and reasonable rate pursuant to Division rule at 28 Texas Administrative Code §134.1 and Texas Labor Code §413.011(d).
3. Division rule at 28 TAC §134.1, effective May 16, 2002, 27 TexReg 4047, requires that "Reimbursement for services not identified in an established fee guideline shall be reimbursed at fair and reasonable rates as described in the Texas Workers' Compensation Act, §413.011 until such period that specific fee guidelines are established by the commission."
4. Division rule at 28 TAC §134.1, effective May 2, 2006, 31 TexReg 3561, requires that, in the absence of an applicable fee guideline, reimbursement for health care not provided through a workers' compensation health care network shall be made in accordance with subsection §134.1(d) which states that "Fair and reasonable reimbursement: (1) is consistent with the criteria of Labor Code §413.011; (2) ensures that similar procedures provided in similar circumstances receive similar reimbursement; and (3) is based on nationally recognized published studies, published Division medical dispute decisions, and values assigned for services involving similar work and resource commitments, if available."
5. Texas Labor Code §413.011(d) requires that fee guidelines must be fair and reasonable and designed to ensure the quality of medical care and to achieve effective medical cost control. The guidelines may not provide for payment of a fee in excess of the fee charged for similar treatment of an injured individual of an equivalent standard of living and paid by that individual or by someone acting on that individual's behalf. It further requires that the Division consider the increased security of payment afforded by the Act in establishing the fee guidelines.
6. Division rule at 28 TAC §133.307(c)(2)(F)(iv), effective December 31, 2006, 31 TexReg 10314, applicable to disputes filed on or after January 15, 2007, requires that the request shall include a position statement of the disputed issue(s) that shall include "how the submitted documentation supports the requestor position for each disputed fee issue." Review of the requestor's documentation finds that the requestor has not discussed how the submitted documentation supports the requestor position for each disputed fee issue. The Division concludes that the requestor has not met the requirements of Division rule at 28 TAC §133.307(c)(2)(F)(iv).
7. Division rule at 28 TAC §133.307(c)(2)(G), effective December 31, 2006, 31 TexReg 10314, applicable to disputes filed on or after January 15, 2007, requires the requestor to provide "documentation that discusses, demonstrates, and justifies that the amount being sought is a fair and reasonable rate of reimbursement in accordance with §134.1 of this title (relating to Medical Reimbursement) when the dispute involves health care for which the Division has not established a maximum allowable reimbursement (MAR), as applicable." Review of the submitted documentation finds that:
 - The requestor's position statement states that "The expected reimbursement is based upon the hospital's fair and reasonable charges, usual and customary which is the amount of its billed charges of \$27,603.25."
 - The requestor does not discuss or explain how additional payment of \$20,110.16 would result in a fair and reasonable reimbursement.
 - The requestor did not submit documentation to support that the payment amount being sought is a fair and reasonable rate of reimbursement.
 - The Division has previously found that a reimbursement methodology based upon payment of a hospital's billed charges, or a percentage of billed charges, does not produce an acceptable payment amount. This methodology was considered and rejected by the Division in the *Acute Care Inpatient Hospital Fee Guideline* adoption preamble which states at 22 Texas Register 6276 (July 4, 1997) that:

"A discount from billed charges was another method of reimbursement which was considered. Again, this method was found unacceptable because it leaves the ultimate reimbursement in the control of the hospital, thus defeating the statutory objective of effective cost control and the statutory standard not to pay more than for similar treatment of an injured individual of an equivalent standard of living. It also provides no incentive to contain medical costs, would be administratively burdensome for the Commission and system participants, and would require additional Commission resources."
 - The requestor does not discuss or explain how payment of the requested amount would satisfy the requirements of Division rule at 28 TAC §134.1.
 - The requestor did not discuss or support that the proposed methodology would ensure that similar procedures provided in similar circumstances receive similar reimbursement.
 - The requestor did not submit nationally recognized published studies, published Division medical dispute decisions, or documentation of values assigned for services involving similar work and resource commitments to support the proposed methodology.

The request for additional reimbursement is not supported. Thorough review of the documentation submitted by the

requestor finds that the requestor has not demonstrated or justified that payment of the amount sought would be a fair and reasonable rate of reimbursement for the services in dispute. Additional payment cannot be recommended.

8. The Division would like to emphasize that individual medical fee dispute outcomes rely upon the evidence presented by the requestor and respondent during dispute resolution, and the thorough review and consideration of that evidence. After thorough review and consideration of all the evidence presented by the parties to this dispute, it is determined that the submitted documentation does not support the reimbursement amount sought by the requestor. The Division concludes that this dispute was not filed in the form and manner prescribed under Division rules at 28 Texas Administrative Code §133.307(c)(2)(F)(iv) and §133.307(c)(2)(G). The Division further concludes that the requestor failed to support its position that additional reimbursement is due. As a result, the amount ordered is \$0.00.
